

## **ENVIRONMENTAL POLICY**

MonuRent Holdings Ltd is committed to the preservation and enhancement of the environment. We acknowledge our responsibility for the protection of the environment throughout all stages of the product and operational life cycles.

We will manage the operations within our control to limit the possibility of adverse impacts upon the environment.

To achieve this MonuRent will;

- Comply with all relevant Federal or State legal obligations and Environmental Acts
- Respect and comply with our Clients environmental policies and environmental plans
- Respect community environmental values
- Implement industry best practices for minimizing environmental impact, wherever practical
- Minimise noise and dust pollution on all our sites
- Ensure that at all times our operations are contained within the designated site areas and access roads and in particular that the disturbance to land and vegetation is avoided where practicable
- Exercise all reasonable care to prevent environmental impact
- Not to bring on to site any radioactive material unless it complies with all laws and has approval in the contract to do so
- Educate and motivate our employees to ensure accountability for the protection of the environment
- Promote the economical use of materials and decrease emissions and wastage in order to reduce pollution
